Conway MacKenzie, BT&T Provide International Turnaround, Restructuring Services

Thursday, January 29, 2009

Current Issue

Van Conway, president of Conway MacKenzie, Inc. (CM&D) and Alan Tilley, principal of Bryan Tappy & Tilley (BT&T), announced that the two firms have entered into an exclusive affiliation to provide international turnaround and restructuring services to both U.S. and European-based companies.

CM&D, headquartered in Detroit, MI specializes in turnaround and crisis management, performance improvement, manufacturing operations consulting, litigation support and investment banking services.

BT&T, headquartered in London, England specializes in European turnaround and restructuring situations.

The combination of these two firms provides a seamless solution to companies in need of international restructuring services. With the addition of European expertise, CM&D enhances its service offerings to U.S.-based companies that require a cross-border solution. Similarly, BT&T is now able to better serve European companies with U.S. operations.
